# WHY I HAVE WRITTEN THESE PAGES FOR YOU

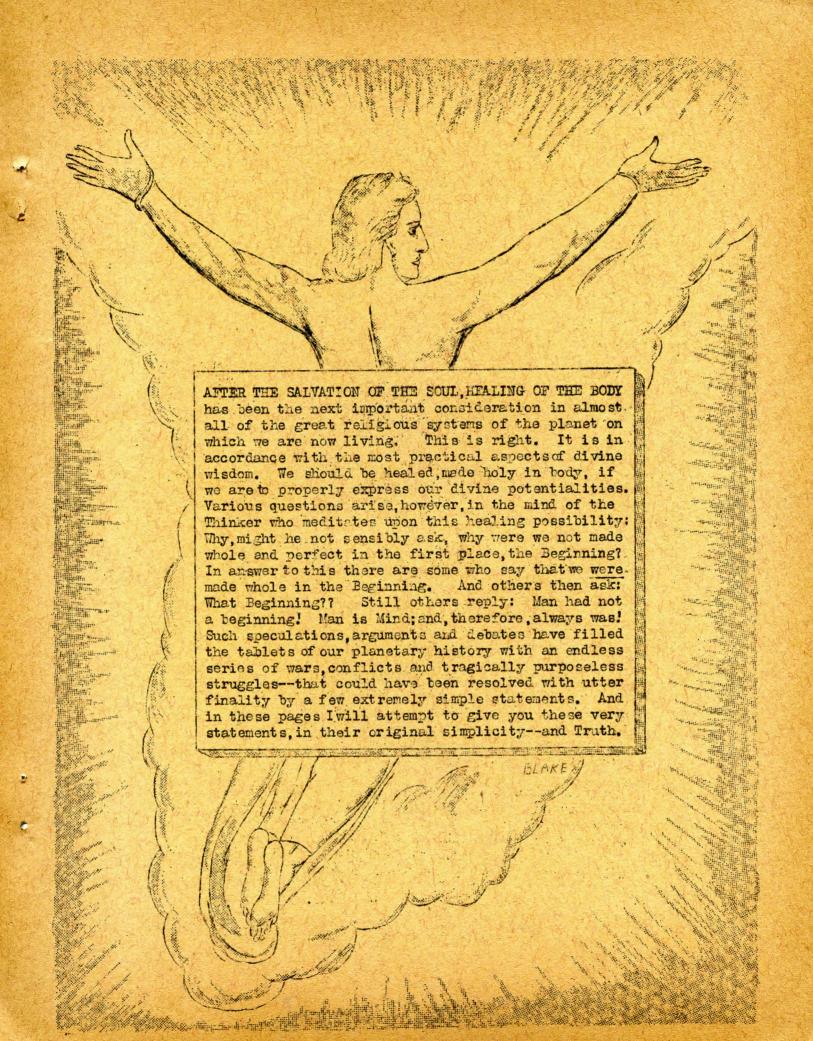

IF YOU WISH TO BE HEALED I CAN GIVE YOU-THE AQUARIAN KEY-THAT will provide you with a Law of Health you have never used before. It will unlock certain Etheric Chambers within your mortal body about which you know nothing at this moment. This Aquarian Key was given to me by a Company of Illumined Beings Who, for most of us, are invisible and intangible. They are not dead people. \*\*\*\*
Their knowledge of the Healing Forces of God is something no one in our mortal world has ever discovered—until They gave me this Instruction I am gladly passing on to you through these pages.

The Healing Principles which I will try to explain in this book are totally unknown in any circle of metaphysical or occult healers. When you have read these pages you will realize that my statements are justified—and why I have been so bold in my claims for this magnificent Art of Higher Etheric Healing.

There are healers who will say: "Of course we have known of this advanced method of healing. But we have held our peace since we have felt that Mankind was not yet ready for such great sciences." To which I can only say--Phiffle! Is Mankind ready for the atombomb, or worse, the Hell-bomb? Is Humanity prepared to fight the plague of deadly germs shot into the night while our cities are asleep? And, finally, are we prepared to meet the arrival, out of our skies, of a host of Space-Men in their fabulous machines??? All of these things are here, and right now. When, if ever, shall we BE prepared for them if those who claim to know such occult secrets fiddle with them while our civilization collapses!

These pages will offer YOU healing. They will provide YOU with whatever kind of healing you wish or need. This is the answer of The Great Guardians of Mankind to our immediate problems, our painfully present trials and tribulations, mental or otherwise.

#### THE PERFECT PATTERN

WE HEAR A GREAT DEAL ABOUT THE NEW AGE. MANY INSIST THAT IT IS here now; and point to the amazing things we have in our mechanical world as proof that the New Age is indeed with us. It is easy enough to go along with these forward-minded people who so gallantly view each new advance of our scientific abilities as another milestone in The Great Aquarian Dispensation.

But at the same time our enthusiasm is often tempered, or cooled to a chill, by the devastating finger of the fatalist who points out the terrible, and logical, conclusion of our scientific genius: First, the annihilation of all individuality (as self-reliant and independent personalities). Second, the destruction of all creative inspiration; and finally the simple but total annihilation of our planet——and all its peoples! Pax vobiscum!

"Our spiritual development has not kept pace with our mechanical advances. Our material developments have not produced advances in our moral and ethical growth." These are charges constantly made by thousands of well-meaning but ineffective reformers; and I would not be echoing them had I nothing better to offer you.

The New Age has compelled us to accept, and use, many new ideas we might have turned our backs upon had not material necessity compelled us to accept them: Radio, Television, Aeroplanes, etc. And now we feel we couldn't live without them!

Today this New Age is demanding a corresponding improvement in our spiritual or psychological development that will give us the same advanced measure of activity we enjoy in the material plane.

Before our inventors in the fields of science could create what is truly a New Age, it was necessary for them to evolve an entirely new approach to our age-old problems, the atomic approach.

I am a scientific searcher in the field of spiritual or psychological knowledge. I have compiled a New Spiritual Science. This New Science of Etheric Consciousness has been revealed to me much in the same way that material discoveries have come to the people in our factories, by the merciful Intervention of the Guardians of our Planetary Systems, the Unseen Ones of Etheria.

I am therefore a Pioneer, a Way-shower, a Trail-breaker as I now fight my way through the jungles of metaphysical confusion and caryeea Pathway for those less experienced in this High Crusade of the Spirit. I shall make friends. I shall make enemies. But I shall hew a Way, broad and clear, straight and true, that will carry every Pilgrim safely to the Gates of Etheria! KISMET.

## THE PERFECT PATTERN

THERE ARE PERHAPS AS MANY HEALING METHODS AS THERE are people to be healed. And frequently the very abundance of these many methods makes it difficult for us to decide which method will be best for us. During the many, many years of my ministry as student and, eventually, as teacher I have probably followed every system of restoring the health of mind and body that has been known to Mankind down the long ages. I have had many successes——and just as many failures! And I came to believe what so many other spiritual or

metaphysical healers believed—that there is no one system which, in every case, will heal everyone. The vast differences in human beings seemed to substantiate this conclusion, although at times I rather felt that it was just an alibi for my own failures, and not a very good one at that.

But during all these years of experiment in many parts of the globe and with almost every type and kind of human temperament. I was aware of some subtle resistance deep in my Soul against believing that there could not be One Great Divine Method of Healing the suffering children of God. This inner feeling grew and grew until against my so-called "better" judgment. I became convinced that there MUST be The Perfect Pattern of Health for everyone--regardless of their temperament disposition or "spirituality."

In this Search for the Impossible as my friends called it, I became some thing of a thistle in the side of numerous practitioners by refusing to accept as Gospel those basic teachings of the Mind, the Soul, the Spirit, and the Human Body which, taken together, make up most of our modern systems of "divine or spiritual" healing.

I lost a good many "friends" and quite a substantial amount of money by my "unscientific attitude" towards all present methods of healing. And at times that thing we call our "better judgment" just about persuaded me that my task was truly impossible, that there was no system which I could use to bestow a healing upon everyone, under all conditions at all times. But in every case when I was about to give up my search for The Perfect Pattern that WOULD heal every human heart who turned to it; when again and again I was told by my friends that I was wasting my time, and theirs, that I should be sensible and accept the knowledge we now have, deep, deep within those silent chambers of my heart of hearts. I KNEW that the Perfect Pattern DID exist. And I also knew that somehow, sometime, some where I would find it. And when I found it, I would give it to everyone without price, without restrictions, freely and utterly as gave The Christ!

It always delighted and encouraged me (again against my "better Judgment") when a clairvoyant or psychic would read for me and tell me of this goal, this strange ambition as some termed it, or the "book on healing" they felt I would someday write. How little did these blessed souls realize with what hope I carried their words in my secret heart, words of encouragment!

# THE PERFECT PATTERN.

TODAY I KNOW THAT THERE IS A PERFECT HEALING PATTERN WHICH NEVER fails to produce a perfect, and complete, healing in every case. This is a tremendous statement, and one probably that will be challenged constantly by various groups and many individuals interested in the Great Art of Divine Healing. But I welcome these challenges, for I know that if this mighty method of the Perfect Prayer is studied, and applied, every critic will have his own questioned answered—answered so beautifully and completely he will never again object to the sweeping claims I am making for this New Age Art of Alignment.

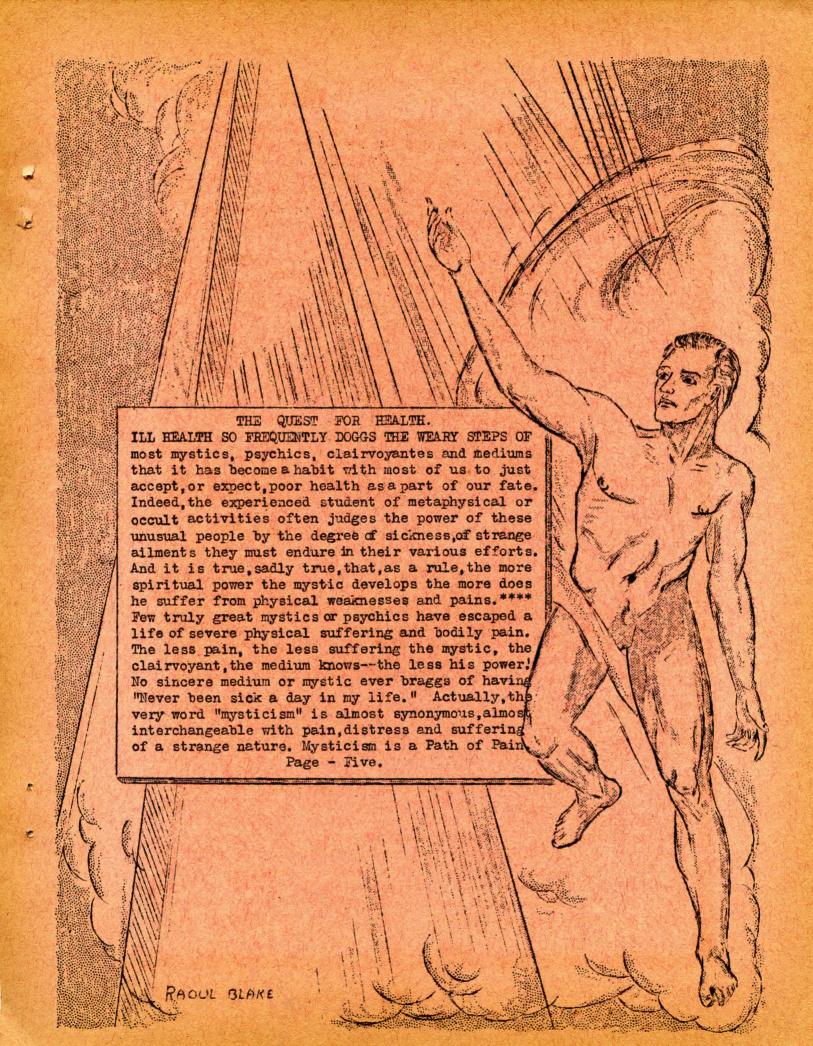

There IS a Perfect Prayer. It is absolute in its power, exact in its science and complete in its fulfillment. And YOU may make this New Age Prayer. YOU may have the fulfillment which it brings to all who invoke the Cosmic Pattern which has brought you forth in the first place as an individualizing Child of the Father, Infinite Light.

It will not be difficult to teach you how to contact this New Age Force, this Atomic-Power dwelling within you. The elements of this Cosmic Ray can be explained in ten or fifteen minutes, and its Laws of Projection clearly presented for your application and use. But, unfortunately it will not be possible, in fifteen minutes, to cause you to completely UNIMARN most of the things you have studied and accepted as a part of any or all of the many healing systems we have been using these last 2000 years in the old Age of Pisces.

You are not longer living in the age of the horse-and-buggy; of the tallow candle, nor even the gas-light. You are living the 20th Century law of Science. If we are to bring a community of primitive men and women from the jungle, and give them our modern civilization, they must surrender the law of the jungle—and accept our superior standards of human existence. And you, if you are to receive this magnificent Message of the Etheric Masters, you must leave behind, in complete willingness, all the ignorance, errors and superstitions you, and all of us, have been holding fast to——in the hope of a healing.

It is folly to put new wine into old bottles. And the task of preparing new bottles, new mental receptacles, new emotional vessels, is seldom an easy one—although it is a simple one. You are the vessel, you are the chalice which must receive this highly esplosive Essence of Etheria. You must be prepared to receive this Cosmic Power which in a most literal way is the Nectar of the Gods, the Ambrosia of Life. In the Grecian myths this Ambrosia of the Gods, distilled upon the far heights of Blympus, and guarded by fearsome monsters, gave he who sipped of it——instant and eternal healing, Immortal Life, God-hood!

Are you ready to become as The Gods? For, in effect, such is the Power of this Magic Elixir of Etheric Light. This I can offer, now, to YOU!

# QUEST FOR HEALTH.

I WILL NOT USE THIS VALUABLE SPACE TO GO INTO THE PAINFUL AND complex health problems I have had for most of my life, consecrated as I was at an early age to the Path of the Mystic. All I shall do here is to state simply but emphatically that if pain and physical suffering do have a meaning to the mystic, I could never quite figure out the significance of the tortures which so constantly filled my human body, from birth---until three years ago.

According to the many doctors who examined my body nothing very serious was wrong with me. "Your trouble is psychic." I was told dozens of times. "Organically there is nothing wrong with you." In those days our medical doctors understood very little themselves about what they called "psychic disorders." It was a term they used in desperation to try and explain what they could not diagnose from familiar systems. To be told that your pains were the reactions of psychic disorders was a polite way of telling you that you were full of imagination. Fortunately the New Age has produced its illumination in medical circles as elsewhere; and it is no longer a disgrace to be "psychically disturbed." Indeed, it is now most fashionable to have a psychicatrist who for a fancy fee will probe into the darkest depths of your psychological or subconscious nature, and come up with brilliant solutions to all your "peculiar" problems and strange weaknesses in mind and body. Modern psychology is the richest racket of the Twentieth Century.

In many instances modern psychology is more primitive than the witch-craft of the jungles. It is being used by so-called Saints of the New Age in a way that would be the envy of the crudest of sorcerers in their dark dens of evil and sin. Interpretors of the Bible are filling huge halls with frightened men and women in the same way that the medicine-men have ruled their jungle-people in every land and age. "Scientific" systems of healing are being sold at exhorbitant prices to the sick and fearful—in the name of Jesus Christ. The same mental magic that is used in jungle villages is being sold under the exalted title of Christianity.

No greater evil exists on the globe than the false and vicious teachings of "Scientific Christianity" which are being sold in car-load lots to a trusting world which wants only to find some relief from the terrible pain and bodily burdens of human life.

I have gone through all of these systems, scientific and otherwise. In most cases I found them so busy being scientific they had no time to be Christian. There is nothing in these systems of Modern Psychological Christianity which the jungle-people of every age have not known and used, most effectively. We dress it up with fancy names, electrical terms, expensive churches and declare it to be the last word on healing from the heights of Heaven. There is often great power in these teachings——but it is not the Power of Heaven and Its Hosts of Light. It is the power of evil. FROM EARLY CHILDHOOD I HAD BEEN FASCINATED BY THE MAGICAL OR miraculous healing powers of the Orientals, while those tricks as they were called by my Christian friends, of fire-walking, floating in air, vanishing from sight, and so on, were, to my child's mind simply clever tricks. It was not until much later in my studies of these matters that I realized even the "tricks" were closely related to a contact with the Spirit.

Wherever I went my aches and pains, my eternal headaches, went with me. My parents were teachers in the foreign mission field and worked with the universities in most of the missions in the Far East. This constant journeying from one country to another brought us in touch with just about every possible kind of healing and healers. And eager to relieve me of my pains, especially my headaches, my mother patiently sought healing from many native "doctors" which she would ordinarily have scorned and despised. Consequently during my early years I was treated to first hand experience with an amazing conglomeration of Oriental medicine and magic. The results were about even, half good, half bad, but never lasting or complete. I could fill a volume with the details of this frantic attempt to find relief from body pain. Some of it was extremely comic, some very dangerous, but most of it was harmless——and hopeless.

Finally when I reached the ripe young age of sixteen, and discovered that I was earning as much money as my parents. I demanded my freedom from all witch-doctors and village healers. I was now on my own---and determined to find health and strength.

Half a century has passed since that eventful year when I began my life-long search for The Elixir of Life, The Fountain of an Eternally Young Body and Mind. My search was long, and painful and discouraging beyond belief. My goal seemed to be something only a madman would pursue---and I have often been called "mad" by well-peaning but impatient friends who advised me to "accept life as it is." "Whatever is, is best," I was told so many, many friends who felt that "Man was made to suffer---and die."

Often I was at the point of yielding to the pressure of family and friends who insisted that the wisest course was to accept the painful-life as my particular fate and endure it with faith and courage and resignation. But this last, resignation, was impossible for me to accept. In my Horoscope I have twelve of the Square aspects, and three Oppositions (enough to kill ten men certain Astrologers have insisted) but I have Jupiter in Trine to my Ascendant—and I have won my battle, I have found my goal.

TT IS AN ASTONISHING THING TO WATCH A COMPANY OF BARE FOOTED MEN walk over red hot coals and not suffer the slightest pain or discomfort. It is an amazing experience to watch a Yogi, a mystic of India, swallow fuming nitric acid, inhale the deadly fumes of cyanid gasses, inject the venom of a king cobra into his veins——and still live to repeat the performance many times. I have seen many such magical feats in India and China and Egypt. As a child in Burma, I was often carried in the arms of my native nurse as she walked, in complete comfort and safety, over a bed of flaming embers. Some day, she told me, I would learn to do the same "trick" with ease.

As a child I enjoyed these "tricks" and did not realize how extraordinary they actually were. And as the many years of my quest
for health brought me little success, my mind turned again, and in a
still fascinated mood, to these incredible feats of the primitive
men and women in their jungle and wilderness villages. How did
these simple, childlike people manage to completely defy, to ignore,
the very laws of Nature and perform such miracles. But did they,
I wondered, actually ignore the Laws of God? Did they, perhaps, in
their primitive, uneducated fashion, not possess knowledge, information or mystic secrets about which we, the white conquerors of the
world, knew nothing; of which we never dreamed?

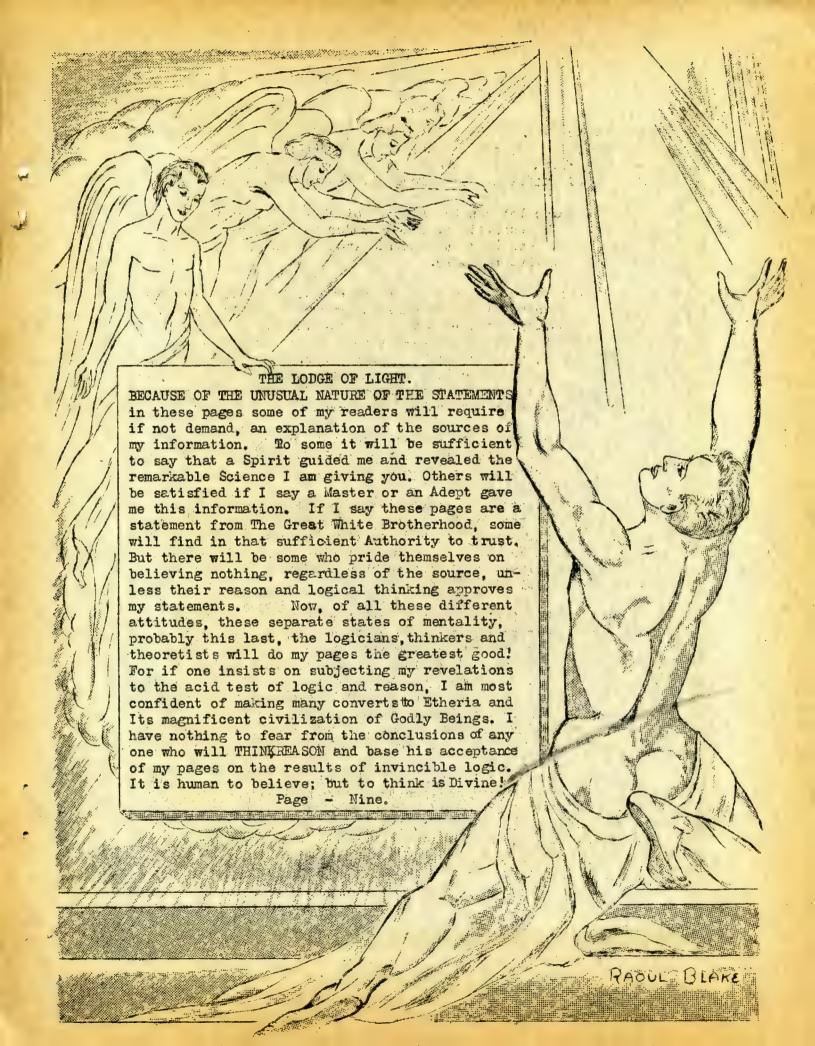

In the hope that I might learn something of this secret knowledge. I spent many years wandering throughout the Far East, seeking the remedy, the magic touch, which would remove the cause of my daily struggle for health in body and mind. I learned many things. I learned how to perform some of these "tricks," but I never performed them——because I was too heavily burdened with the weight of a complex scholastic education. I lacked the simple faith of of these child-like natives who truly worked wonders at will.

However, I did not make this weary pilgrimage for naught. And a time came when, because of these years of preparatory study, I was able to sit in a certain hallowed spot, high upon the snowy peaks of the eternal mountains and listen to a Great Company of God-like Beings as They revealed The Great Healing Secret which, all of these painful years, I had known in my heart. DID exist.

This Great Healing Secret I shall now share with each of you who read these pages. And my victory shall be your victory. My wisdom shall be yours to use if you will but choose to accept and use it.

THE LODGE OF LIGHT

THE AGE OF PISCES, WHICH HAS ENDURED FOR TWO THOUSAND YEARS, WAS the Age of Faith, of hope deferred, of future fulfillments. The Age of Aquarius is the age of the present moment. It is the Age of Fulfillment, of Demonstration and Compensation.

The difference between the Age of Faith, Pisces the Fisherman, and the Age of Fulfillment can be understood clearly by simply comparing the condition of Mankind two thousand years ago with the world we live in today.

Great and tremendous developments in the world of science have taken place in the last one hundred years of the Old Age. And equally important strides have been made in our spiritual and philosophical understanding—but this is not as apparent, as easy to see, as the mechanical improvements. Many sincere and devoted Students of the Light are unaware of the tremendous, the miraculous achievements in the Circle of Consciousness which a few heroic pioneers have achieved in even the last twenty years.

Only a handful of Students have been aware of the founding of The Lodge of Light to serve as a channel for the promotion of the True Aquarian Science, the Aquarian Philosophy of the Christ.

Under the Guidance, and Protection of a company of Spiritual Lords, working from the Inner Planes. The Lodge of Light came in to being in the autumn of 1945, shortly after the signing of the armistice with Japan. The first material Shrine of the Lodge came into physical manifestation high in the Rocky Mountains of Colorado and exists there today.

Because of the highly unusual character of the Aquarian Age, it has been necessary to prepare our Student body quite as carefully as the governments of the world have had to prepare their peoples for the amazing developments of the Atomic Age. It is not possible for the average citizen of the atomic world of today to comprehend the bewildering implications of this new age. Nor is it possible for the Student of the Aquarian Cosmic Power to properly understand it without careful and patient preparation. These books by Gerald Light are part of that necessary education.

We will go forward with our Spiritual Studies, to goals as unusual and world-shaking as the gigantic new possibilities of material improvement the Atomic Age has produced. But unlike the terrible possibilities of the Atomic-bombs, our Spiritual victories will never permit the destruction of anything save spiritual poverty, philosophical ignorance and metaphysical bigotry. Pax!

EACH OF YOU IS A LODGE OF LIGHT, THE TEMPLE OF GOD. Within this sacred shrine; your human body; there are Twelve Mystic Altars, the secret Organs of Light. Because health and healing are so vitally involved with every world religion and spiritual philosophy. The Great Divine Voices, Who speak through the Lodge of Light, are attempting to reach the more alert of America's vast Student body and give them knowledge that will enable us to heal every ache and pain.

The information contained in these few pages might easily have been expended to cover many hundreds of pages. Indeed, to do justice to this magnificent statement from The Lodge of Light, a large volume must eventually be written and offered to Mankind. But in spite of its briefness it is possible to contain within this brochure the Whole of the Law; and to provide you with full and complete instructions for invoking, and applying, these mighty Aquarian Powers for every healing need of your daily, mortal life.

Within your human body there are Twelve Divine Powers. We have always thought of these Powers as organs, if we thought of them at all, and we are not aware of them unless they are in pain. When it is gradually understood what tremendous Forces you possess in the Twelve Sacred Organs that work together to give you a body, which seems to operate itself, you will be astonished that you could be within this body and yet not suspect its cosmic character.

There are Twelve Sacred Races which move through the people of Twelve Sacred Nations. Each of these nations has a Sacred River which rises from a Sacred Lake or Sea. There is also a Sacred Mountain or Holy Summit somewhere in each of these Twelve Mystic Lands. Also there are Twelve Sacred Tones or Sounds which work with Twelve Divine Colors. Each of the Twelve Mystic Nations contains Twelve Sacred Cities or Shrines.

The Divine Sons of God, the Way-Showers Who have founded all of the World-Religions. The Messiahs have always gathered around Them Twelve Apostles, Disciples or Assistants. In order to do the perfect work for which They came into the world, these Messiahs first endeavored to train and teach Their Disciples how to work in a highly specialized system of public instruction and service. And according to the success the World-Teachers had with Their own chosen Apostles was Their Mission to Mankind successful or an apparent failure. "These things which I do shall ye do also." And in many cases it was the Disciples of the Divine Teacher who successfully carried His Message to the people of His time.

THE GREAT TEACHERS WHO CAME AT REGULATED TIMES DOWN THROUGH THE ages of history always came to bring a New Way of Life to whatever country God ordained to receive His "Chosen Sons," This New Way, this Dispensation from the old way, was first given, in secrecy, to a small band of disciples which The Teacher selected to act as His Inner Circle. To this specially chosen group He gave a particular kind of Mystic Instruction which enabled them, the Disciples, to act in His Name, "cast out devils", etc. And to the people of the market-places another kind of Instruction was devised, since these were not of the chosen band.

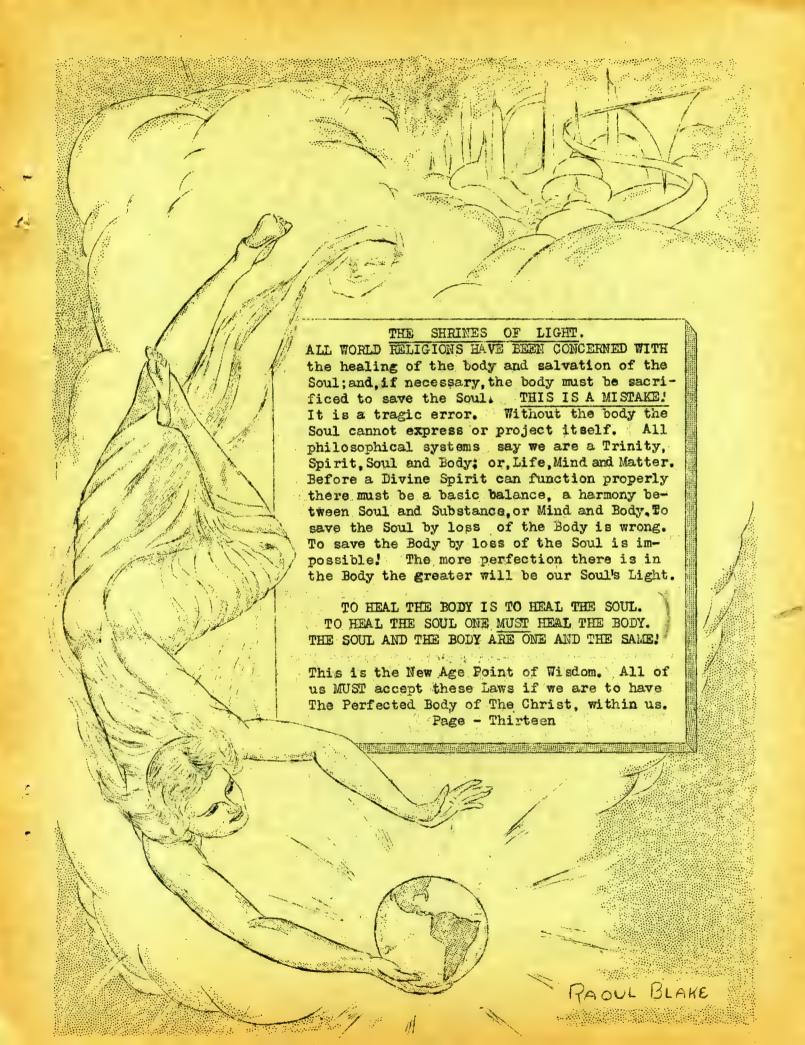

The state of the s

It is the same in this New Age of Aquarius. There is a special, a very particular Dispensation which is reserved for those who can understand it and properly demonstrate its great vibrations. This Dispensation, this New Way gives to you a completely unorthodox, utterly original method of demonstrating "The Kingdom of God" within and upon your human body. The old command, "Be ye Perfect, as your Father-in-Heaven is Perfect," assumed a much more vital meaning in the Light of the New Dispensation.

You are a twelve-fold Being of Light. And this Light must be allowed to shine forth in Its Original Purity and Perfection. For the first time in many ages of human evolution The Secret Wisdom of the Christ is offered broadcast to Humanity at large.

You must come, as a Satiour, to your Twelve Disciples, the Organs within your human body. You must learn the special and peculiar nature of each of these Sacred Shrines of the Spirit Which lives within you. And you must learn something of the mystic relationship which exists between your body and certain sacred places on our physical planet, our Mother the Earth.

No wars, no conflicts, no catastrophes can come to your planet unless these same disorders come, first, to you——and then reach outward into the very substance of the globe upon which you live. YOU are a Saviour in a very real way. YOU hold mighty powers within these mysterious organs of your body, about which none of us have ever known much because they are hidden so deeply within us. In your heart there is a supreme power of order of balance which will work miracles for you when you learn how to put it in to action. In your stomach is a magnificent vibration that will reveal amazing secrets to your darkened mind. In your liver is a force that can be harnassed to stop a bullet aimed at your body. In your lungs is a magnetic current which can set fire to a rock of granite, burn its way through steel—and purify your body of every grain of poison and decay, bestowing eternal youth, beauty and inexhaustible strength and energy for your every need. \*\*\*\*\*

#### THE SHRINES OF LIGHT.

"WHAT SHALL IT PROFIT A MAN IF HE GAINS THE WHOLE WORLD---AND SO suffers the loss of his Soul?" This is one more of the many, and famous, statements apparently from the New Testament, and attributed to Jesus. It is a statement devised by the selfish priesthood of early Christian days to soothe the ambitions and yearnings of the multitudes. Priests have ever attempted to turn the people from the pursuit of material happiness, leaving all earthly power and prosperity for the priests.

In the first place, one who has gained the "whole world" could not possibly lose his Soul——for his Soul would have made it possible for him to win the world.

Our Soul is made up of two basic aspects or principles: Thought, and feeling; or mentation and emotion. What you think and feel makes up your Soul. Everything in your Soul is projected out in to your body. Every thought and feeling must act thru your body.

A thought and feeling of strength will affect every organ and cell in your body, as certainly as will a thought and feeling of fear fill and cripple every cell of your body.

Our thoughts and feelings make SOUL PATTERNS. Your thoughts of life and death, pain and pleasure, health and illness create, in the Invisible Astral Planes, create Patterns of these Ideas. And if you pour your feelings or emotions into these Patterns, you energize, magnetise, activate them.

This is the Law: When you THINK of an idea you create a mental pattern of it. If you pour your feelings into your thoughts, by allowing your emotions to act, you ENSOUL your thoughts with a portion of yourself. As long as you do not pour your emotional energy into your thoughts—your thoughts have no power to live in your Aura. This is a great secret known to every Adept.

Everything you FEEL must, someday, become a part of your Soul!

Your Immortal Self, your Divine Spirit, must act through, must move through these SOUL PATTERNS—and project them down into your material world. Spirit, your Divine Being, can send in to your body only the material you place in your SOUL PATTERNS.

#### THE SHRINES OF LIGHT.

YOUR SOUL IS NOT IMMORTAL—AND FOR THIS YOU CAN be grateful! Your Soul is subject to constant change, good or bad, according to your thoughts and emotions. Your SPIRIT is immortal, and is never lost. But the Spirit must act through your Soul—and your body. Our Spiritnever has to be saved, but without a body it is powerless to express its divinity, its immortal nature. The Soul is the agent, the emmissary of Spirit. The Soul dwells between the Spirit and the body.

The Soul is a very precious part of our triune nature. The Soul is that which modern psychologists call the "sub-consciousness."

These are simple statements of spiritual truth that have been in the possession of Mankind for ages. However, they are not known by the average student because they have been so distorted and confused by the many religions, and their priests, who have sought to gain special power and privileges from the Sacred Teachings.

Heal the Soul and you will heal the body is not an original idea. Thousands of teachers and books have talked about it. But to transform the Soul by transforming healing, the body—this IS a completely new idea undeveloped by any religion or philosophy.

This is a New Age Point of Wisdom presented to Humanity by those Great Spiritual Authorities in the Invisible Realms of Etheria. It is as revolutionary in the science of healing as the atom-bomb is revolutionary in its military significance. In spite of what some will say, after they read these pages, Mankind has never had this magnificent science of Etheric Healing as presented, for the first time in these pages. And beware the inevitable imitators!

The Wisdom of the Old Age clearly said; "Know ye not ye are Temples of the Living God?" And the New Age Wisdom declares: "If ye would save your Soul, save FIRST thy Body."

Each New Age must advance and increase the wisdom of the former Age. Today The Lodge of Light is building Its Temples-Aquarius on the foundations of the great but completed Age of Pisces. The old dispensation of the Age of Fishes is ended and passed away. All that was good, of God, in the old age now serves as the deep foundational stones upon which the New Age of Uranus-Aquarius is being builded——in spite of the terrible indications that suggest we may soon no longer have any planet to develop another Age.

#### THE SHRINES OF LIGHT.

"LET US MAKE MAN IN OUR IMAGES AND LIKENESS"
Thus spake the Twelve Elohim, the Lords of Creation. And Their Great Edict has been recorded in over one hundred different and ancient Holy Books of many lands and many religions.

Ages beyond counting The Great Spirit dwelling within our Sun gathered around Him Twelve Lords of Light, and sent forth His Cosmic Command: "Let there be Light!" From that moment to this immediate instant, Twelve Supreme Lights have been burning in our human forms, our bodies of flesh and blood and bone.

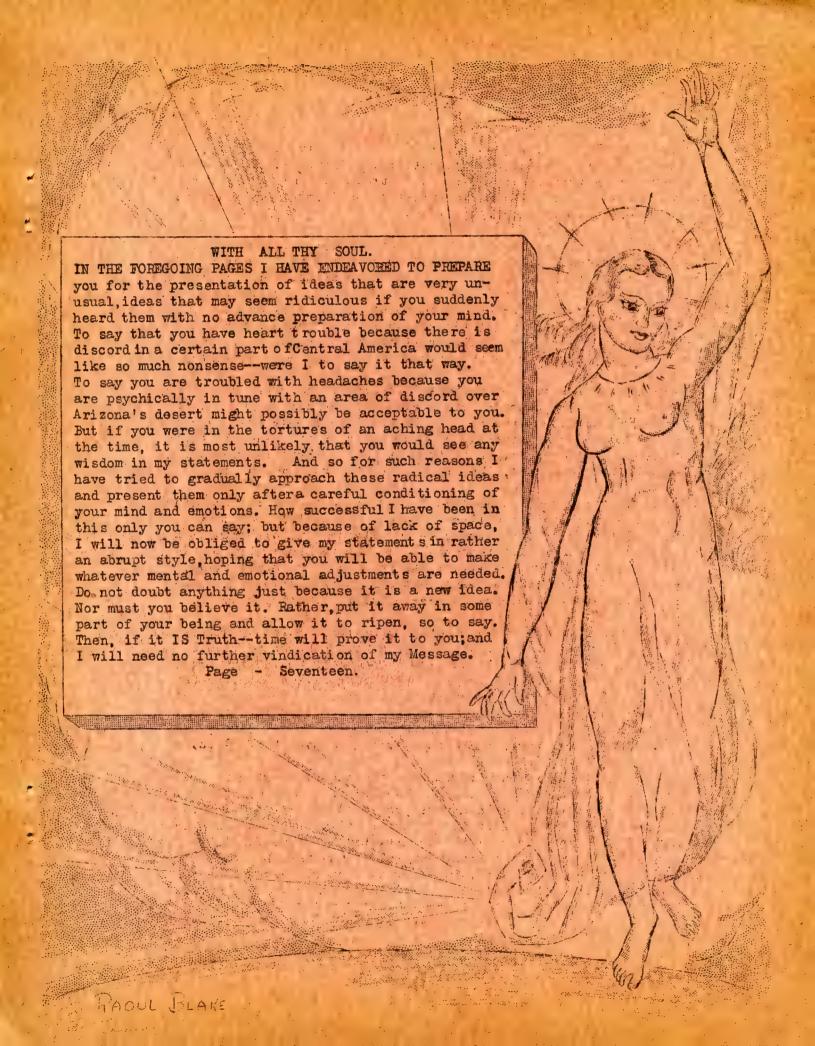

Today in these bodies we have Twelve Sacred Organs. Each one of these organs is a Gift of Light and Consciousness from the Twelve Spirits Before The Throne of God. These Cosmic Lights are projecting Their mighty radiance through every part of our body now. A portion of the Infinite Light of the Cosmos is burning upon the mystic altars of the Twelve Shrines of Life within your human temple of the Spirit.

These tiny sparks of the Divine Spirit are being kept bright and clear by the majestic Flame that burns within the very center of our earth, our material planet. For our physical earth is the literal Body of God, the Infinite Creator!

The Lord of our planet, the World-Soul, dwells within the globe. The Spirit of the earth lives in the planet as actually as we dwell within our flesh body (which is also a globe, or ovid.) From the twelve globes in the sky, our World-Soul receives a stream of Cosmic Substance each hour (specifically each four minutes). Into the twelve Sacred Shrines of our body, Spirit projects a portion of His Twelve Cosmic Rays.

Into our heart we receive the beautiful sky-blue Love-Ray of Venus. Into our solar-plexus is projected the crimson Power-Ray of Mars. Ten other Rays enter the organic shrines of our bodies and complete the daily, hourly, magnetizing we must have.

The Twelve Sacred Organs of our flesh bodies are the outer or concrete aspect of Twelve Inner or Abstract Ideas, for we are made up of Twelve Divine Principles or Ideas. These Principles must be expressed in harmony and balance—or we become weakened in body and mind. Eventually our Divine Spirit must withdraw from the human body because of the lack of order, balance and perfection between these Twelve Cosmic Ideas, or Sons of God. The Shrines of Light become darkened, our Soul sleeps, we die.

WITH ALL THY SOUL

WHEN THE ANCIENT TOMBS OF THE EGYPTIAN KINGS WERE OPENED IN GREAT numbers, at the beginning of the Twentieth Century especially, there began a number of strange and peculiar developments. The advent of several mysterious diseases can be traced to this time, as well as disturbing increases in the varieties and numbers of poisonous creatures, snakes, spiders and insects.

This evil psychic force is the cause of Polio, in most cases. It is a disease which attacks the spinal nervous system. Now when it is recalled that the Sacral Plexus at the base of our spine is in constant touch with the Universal Center of Saturn, located in Egypt, it may not seem too far-fetched to point to the explanation given us by The Great Spiritual Lords of Aquarius. These Divine Ones assure us that we, each and all, reflect in our human bodies whatever discord is acting in the Universal Body of God, our earth.

Remember, we are advised by These Teachers of the Spiritual Realm, remember that our globe is actually a body which the Divine Spirit uses as we each use our own small body. In our body there are to be found hundreds of millions of tiny cells, established in twelve locations, twelve organs or twelve nations. There is the Nation of the Heart, the Lungs, the Liver, the Stomach, and so on.

In the Great Body of the World-Soul, our globe, there are also many hundreds of millions of cells--we are those cells. Our nations are the actual planetary organs of the Divine Soul of Earth. Now when war, famine, disaster occur in the international Body of God, it is because the Twelve Divine Nations, Races or Cosmic Ideas, are out of balance, out of line, out of order. Nations and races fall victims to terrible discord---and die. Exactly as do we.

When you are in pain, sickness or poor health, a kind of war or international conflict exists between your twelve body-organs. The ideas, principles or "traditions" within or behind the organ itself are in discord or disagreement. Your Divine Spirit often urges one of the organs to revolt, as it were, and endeavor to put the entire body in a state of siege that may eventually result in a measure of purification and harmony being restored to you, the Consciousness, the Soul, within the warring continent of flesh.

There is an invisible but highly potent connection between world events and our physical health and happiness. Indeed, historic events can be identified in reverse, so to speak, by studying the ills that have plagued nations at certain times in order to discover the political or religious conflicts that came first. In the Aquarian Age our historians may well study the physical and mental reactions of Humanity in order to properly understand the causes of political and economic conflict which have made wars.

#### WITH ALL THY SOUL

PAIN CAN EXIST IN OUR BODY ONLY WHEN CUR AURA IS abnormally distended (as it usually is). When our Aura is blown up, swelled and diffused, the Cosmic Currents of Life are also weakened, dissipated and diluted. This produces pain. And pain can be known only through one or mere of the Five Senses. Our Senses are the Five Divine Archangels that will fight our battle and put our twelve-fold kingdom of flesh back into peace and relative harmony or health.

By controlling our sense-reactions we can control the Life Force as it flows through the Sacred Organs of our Divine Flesh Temple.

Consider this Great Statement which the Master Physician uttered 2000 years ago: "That which ye do, do with the WHOLE heart, the WHOLE strength, the WHOLE soul and the WHOLE mind." Within these strange words lies the Great Secret of Eternal Health and Perfect Happiness. At first you will understand these words no more than did those faw mortal hearts who heard them from His lips.

Because The Great Piscean Teacher DID use His WHOLE heart and His WHOLE strength, mind and soul in everything He tasted, smelled, saw, heard and touched——He was able to reach His Father—in—Heaven, His Divine Spirit—Self, instantly, constantly and completely.

To the degree that you can live IN your body, live THROUGH all of your Divine Senses, as a WHOLE being---do you KNOW your Father-in Heaven, your Celestial-Self. This is The Law of the Christ-One, The Holy-Child of the Eternal Spirit, the Absolute Creator.

REMEMBER: Our Divine Spirit can move only through the Soul Paths, the Patterns we build by our thoughts and feelings. A Divine Healing cannot come to us if we have surrounded our body with the Soul Patterns of discord, doubt and despair. We must first correct these Patterns. How shall we do this? First, we must halt, stop the action of the pain patterns by condensing our Auras.

And how shall we condense our Auras? By using our senses!

Our Auras have been expanded and diffused in the first place by our unconscious activity of the senses. Therefore, the SALE, the very same identical force which expanded your Aura inharmoniously can now be used to contract it; to condense and solidify those parts of it which are connected with your Twelve Sacred Organs.

Your every sense-reaction is a form of meditation, even prayer.
We shall learn now how to pray (to sense) with our WHOLE hearts,
our WHOLE minds, our WHOLE souls and our WHOLE beings.

LIFE CONSISTS OF NOTHING BUT AN EXPRESSION OF OUR SENSES, GOOD OR so-called bad. When we are not using our senses we are sleeping, or we are dead. Our senses are powerful instruments which will quickly control and dismiss every pain or discomfort we may have. When we are in pain or disease, we are misusing our Divine senses.

For example: You are disturbed, upset, off-center, physically uncomfortable, if not in actual pain. You try to pray, but you cannot collect your thoughts. You try to meditate but your mind wanders and only adds to your confusion and distress. What CAN you do?

You can take a flower and smell it—with your whole heart, whole soul, whole mind and being. When you smell the flower deliberately, with all the concentration you can summon, three things are happening—three wonderful steps toward your Divine Healing:

- 1. You draw your mind to one point, the flower (Dismissing, or forgetting dozens of disturbing thoughts and ideas.)
- 2. Your emotions become dominated by one specific feeling, the fragrance of the flower.
- 3. You become very conscious of YCURSELF as the one who is smelling the flower. You INTENSIFY your SELF, CONDENSE or crystallize yourself. And remember you have pain or discomfort only because you are too expanded too spread out.

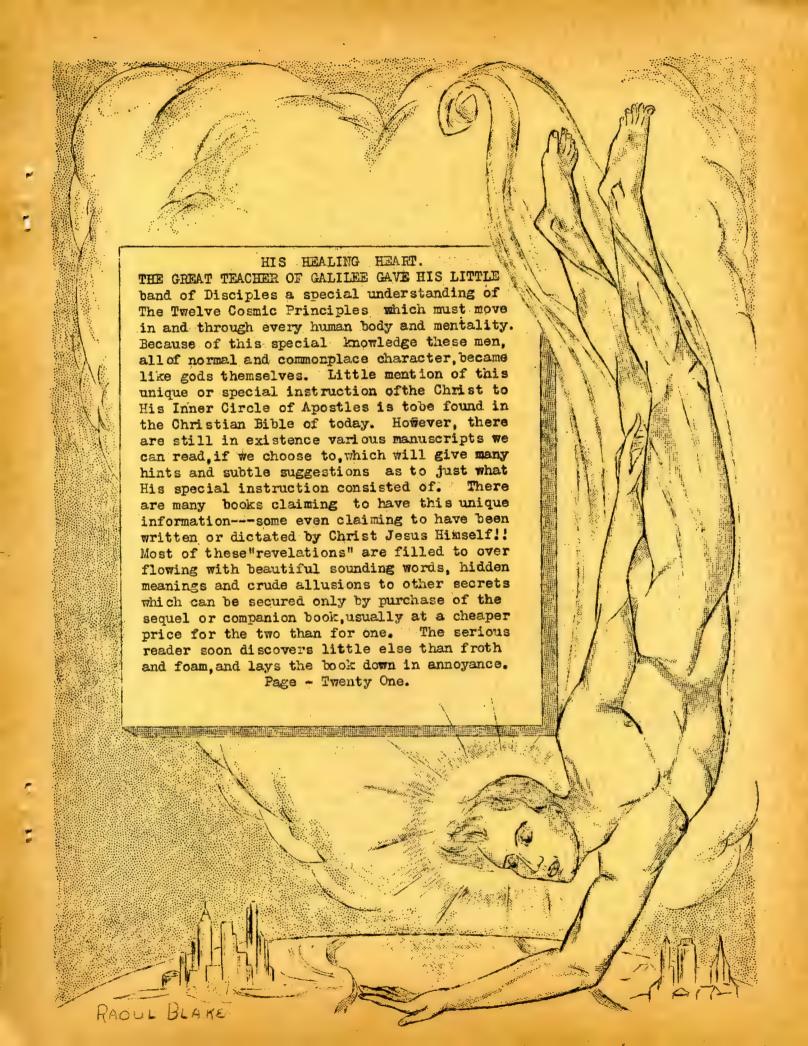

Your senses are Divine. Without them you would be as the trees, the rocks. You rise to heaven through your senses--or slowly sink into the depths. But in either case you MUST use senses. Without sense you have no consciousness. Without consciousness you have no life. Without life......

You can lost yourself so completely in the fragrance of the tiny blossom, you cannot feel pain or distress. Every instant you are unaware of your pain, Nature, Divine Spirit, is able to send, project, healing, harmony, health into every cell of your Being.

This is a very simple system of self-centering your consciousness and drawing it away from those things which are disturbing you. You may use the sense of taste, or sight or touch or hearing to produce this same harmonizing, withdrawing, indrawing, effect.

REMEMBER: You CANNOT be conscious of two opposite feelings at the same moment. Every moment of peace is a moment of healing.

Learn to accumulate Soul-Patterns of momentary peace—and soon an hour of peace will be yours. Then a day, a week; finally forever!

IN THE WELTER OF LEGENDS, TALES AND MYTHS THAT HAVE GROWN UP around the life of this God-Man, it is possible to find proof for almost any statement one wishes to make. As an illustration of this, consider the average Christian's conception of his Christ as a glorified Caspar Milktoast. It is with this absurd popular conception of the Christ that I take violent exception. I am weary of Jesus being forever described as "gentle, kind, forgiving, meek mild and non-resisting." There is ample evidence to present Jesus as anything BUT "meek, mild gentle and non-resisting." In the hallowed halls of the Lodge of the Masters. The White Brotherhood, Jesus is called The Great Warrior, The Mighty General. Certainly when The Piscean comes in His Cosmic Body to the Conclaves of the Masters He is anything but the usual self-effecing Shepherd the Bible tries to convince us He was. Christ-Jesus is a Lord of Cosmic Powers, overwhelming in His majesty, irresistible in His Glory.

This Great Being (who was not a Jew) came with a definite mission to perform. He had a new and vital message which He MUST give to Humanity. He fought for His message. He battled to fulfill His mission. He was first of all a dynamic Leader. Single handed He defied all Rome. He resisted the fanatic and terrible power of the rabbis who held all Jerusalem in fear. Indeed, this mysterious Man-God stood up before all the world of those miserable days and brilliantly, heroically, spoke The Law of Pisces, even though it meant His "death" shortly.

His first step was to gather around Him that odd little company of adoring but bewildered men. And in a short time He had transformed them into radiant reflections of Himself! How had He done this? And why? The Bible does not say; but we know, in these fateful days of the atom-bomb and such, we KNOW what The Great Warrior of Pisces taught His Disciples.

May we not conclude, immediately, that the private Instructions Christ-Jesus entrusted to His consecrated Students were of a highly practical and effective nature——for how else can one understand the miraculous transformation that come into these simple men of Judea, most of whom could not read or write????

What, other than a series of Cosmic Revelations, could have, in so short a time, completely changed, renewed, redeemed and resurrected this nondescript company of Galillean fishermen?????

These same Cosmic Revelations, these Laws of the Over-Soul, are available to you today—if you choose to consider them. They are offered with no ballyhoo or trappings of magic. And they are offered with out price or payment of any kind, save that of your own willingness to "Know The Law, and Live The Life." \*\*\*\*\*

#### HIS HEALING HEART,

JESUS STOOD IN RELATION TO HIS TWELVE DISCIPLES as the sun stands to the twelve planets. There is a point in us that stands in an equally important relationship to the Twelve Sacred Organs (or the Disciples) of our body. This point is symbolized by the physical heart. In metaphysics the heart is constantly being used as a symbol of the Divine One. In practically every philosophical system great emphasis is laid upon the mysterious significance of the heart in relation to The Christ within us. said to have all knowledge, to be all things, and to

The heart is said to have all knowledge, to be all things, and to contain the beginning and the end of all the Cosmic Mysteries.

It is not strange therefore that the Piscean Saviour should have enshrined Himself in the hearts of Humanity, symbolically and in an actual sense. It was through His heart that Jesus reached up to that Cosmic Principle of Love Whom He called The Father.

Though your mind may not comprehend this Aquarian Message, your heart will grasp it with ease, if you will but allow the Christ-Light to flow from it. This Christ-Light is already there. The moment you will accept the Presence of the Twelve Disciples within your Divine Body, that moment has the Christ-Light begun Its supreme Healing Ministry for YOU.

The Universal Christ-Spirit, of Whom Jesus is a representative, dwells within the heart of our earth. From this mystic center He, God or Divine-Mind, directs the activities of the Twelve Global Organs or Cosmic Centers of Light. (And each of these Twelve Mystic Centers is objectified in our physical/Wor Twelve Temples of Light-Wisdom, the sacred retreats of The Great White Brotherhood. These are the Temples Jesus visited during His initiations as He traveled from one country to another.)

The power within your human heart is a spark of this same Cosmic Flame Who lives at the heart-center of the earth. Every pulsation of your own heart is, eventually, known and observed by this Cosmic Heart of our planet (the planetary Christ.) You have life in your heart now, and so in your body, only because the Planetary Heart-Spirit projects a portion of Himself into the Twelve Sacred Organs, or Disciples, of your human body.

Our duty is to live in complete harmony with the Divine Heart of all Humanity, the Father-within. Whatever harmony, health, order and perfection we now have in our body is due to the connections or channels we have managed to keep open to the Very Heart of the Cosmic Soul or Spirit of God at the center of the planet. When these mystic Rivers of Life are clogged, we suffer pain and ills.

# HIS HEALING HEART.

EVERY GREAT MYSTIC HAS INTUITIVELY UNDERSTOOD HIS CONNECTION WITH the Soul of the World, living at the heart center of the globe. But few of these saints, holy-men, hermits and seers have thought it possible to give such knowledge to Mankind. And until Humanity passed through the various experiences of the Age of Pisces and finally came to the world-shattering epoch of Aquarius, these teachers of old were probably justified in keeping their secrets to themselves. For until the phenomena of the airplane, radio, television and atomic fission came into the consciousness of the average man, it would have been impossible to explain to us these astonishing points of The New Dispensation, the Age of Universal Knowledge and interstellar activities (Flying-Saucers, and such!)

God, The Infinite Presence, has placed His Healing Heart within the center of our earth, His Divine Body. Through this cosmic form there beats a magnetic rhythm which sustains everything we can understand as a living creature. We have all fancifully, or in symbolism, spoken of "Mother Nature" and all her activities throughout the world of form and substance. But we have not begun to comprehend how precisely there IS a Divine Mother living in and around every created thing on our planet. Nor have we in any measure grasped the amazing science which has kept This Supreme Creator in touch and in tune with each of us.

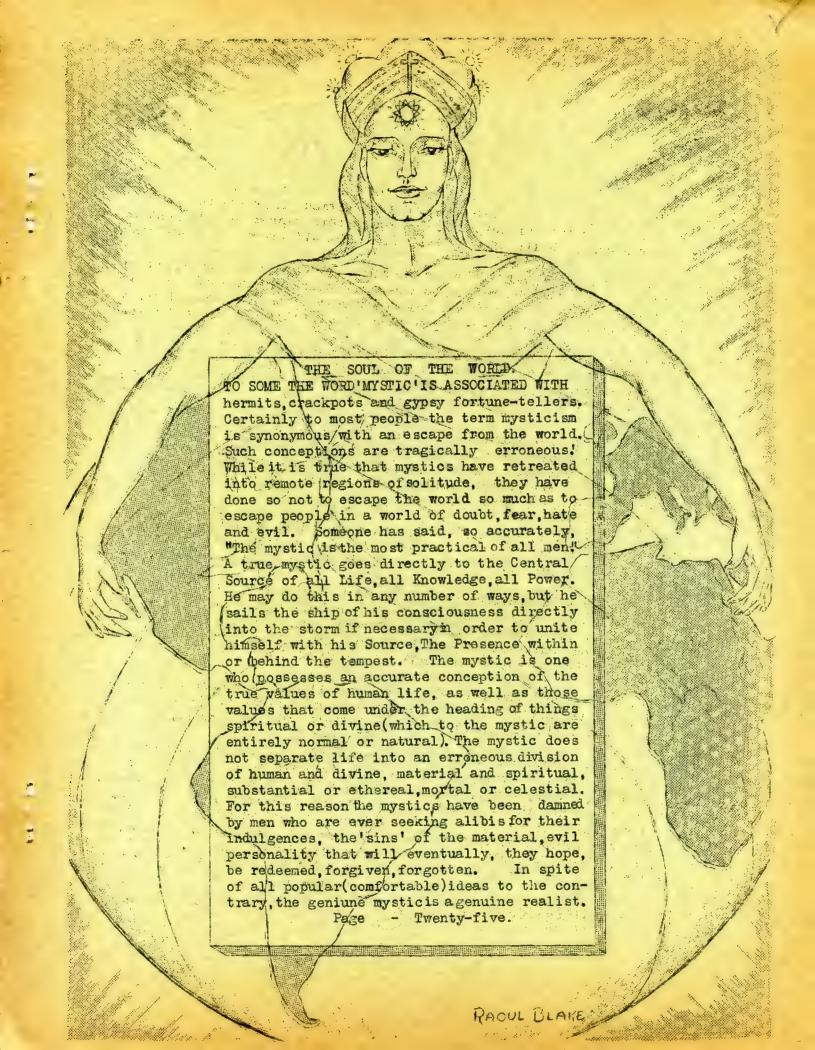

The Message of Aquarius contains many points that are very new to us, even as Students. And we must endeavor to make these many new points a part of our daily living——if we are to have the magnificent benefits of The New Age in our personal lives.

We will have to learn to personalize the universal, or to universalize the personal. That is, we must bring the Infinitude of Divine Spirit into our personal or finite lives——or we must be willing to have our finite, limited worlds expanded, by The Law, to infinite and universal dimensions——and become Christ—like.

The limited personal lives of Humanity are daily, hourly, being changed (often painfully) into a standard that is more universal, more international, more infinite. Sometimes warfare is a method used by The Supreme Consciousness to compel His children to widen their horizons, to extend their personal boundaries, and to open their consciousness to greater and greater measures of the Universal Conceptions of The Christ, The Light of Lights.

YOU stand at the great crossroads where YOU MUST choose which of the highways you will follow. One teads to great personal and private limitation by allowing the government to rule and take full responsibility for your life and its needs. The other is The Great Adventure, The Path of the Free Soul, living in full consciousness of your oneness with Divine Spirit as It radiates Its Life and Love to you from His Healing Heart in our earth.

#### THE SOUL OF THE WORLD.

THE MYSTIC IN HIS SCIENTIFIC LABORATORY HAS FOUND THE SECRET OF GOING into the very heart of the Atom---and his results have astounded the world of materiality. The mystic probing ruthlessly into the secret laboratory of his own Soul has made an equally amazing discovery, for he has learned how to touch and release the God Power in the Planet, the hidden force of the Cosmic Atom! Verily, Mysticism IS Realism!

Perhaps it may help you in your efforts to grasp the stupendous scope of this New Age Point to make the following comparisons: Consider the gigantic power of the atom-bomb, and the enormous energies that have been released for war purposes. Compare this supreme development to the iron cannon balls of the Civil War. The difference is staggering!

Now if you regard your own human energies as represented by the primitive weapons of olden times you can more accurately measure the overwhelmingly superior powers you may now receive from The World Soul, at the center of the planet——if you choose to contact His Great Spirit.

Our planet is a gigantic Atom. Could we stand on Mars or Venus or the Moon, we would see our earth sparkle with the reflected light of the Sun, The Father. The twelve planets of our system surround our Sun exactly as the Twelve Temples surround our physical earth---with Cosmic Energies and Divine Consciousness.

The Cosmic-Spirit, or World-Soul, within our globe radiates a mighty Stream of Life to each of the Twelve Temples exactly as the Sun projects its Creative Rays of Life and Intelligence to the Twelve planets.

To continue this amazing system down to a personal level, we find the twelve planets, moving through the Twelve Temples, and projecting into our human bodies a fragment of the Cosmic Rays. The Twelve Sacred Organs of our material body must recieve these Cosmic Currents, and then send them to every tiny cell of our flesh body.

Thus, in the most complete sense, we are all miniature solar systems. We are small universes, reflecting the Eternal Light of the Cosmic Spirit Who fills all space, and holds Infinity within Himself.

The Twelve Sacred Races and Nations of Earth have their representation in us in the Twelve Mystic Organs, or Shrines, of our bodies: the Heart, Lungs, Liver, Stomach, Kidneys, Intestines and Generatives. These seven are the personal or human representations of the System. The remaining five organs are the impersonal, universal Rays of Life which are symbolized by the five heavy planets, so-called: Neptune, Uranus, Pluto, Persephone and Hermes, making twelve in all.

## THE SOUL OF THE WORLD.

THE TWELVE SPIRITS BEFORE THE SUN THRONE, THE PLANETS, MOVE THROUGH our bodies with every breath and every beat of our hearts. When the Rhythm of Life, coordinated by The Christ, flows into our bodies It must be in harmony with the Great Rhythm of the World-Soul. If our personal rhythm is out of balance with the Universal Pulsation, from the Heart Center of the Planet, then we suffer sickness, ill health and eventually, death!

There is another majestic Point of New Age Wisdom for us to consider: Since we are all tiny cells in the global body of God, whatever exists in our bodies must, sooner or later, be absorbed by the Universal Substance that makes up the Divine Body of our God. Thus, when you express a moment of joy there will be projected in to the planetary Spirit, the World-Soul, a measure of your own joy and happiness. THIS IS A STUPENDOUS POINT OF AQUARIAN SCIENCE. Within your proper understanding of it lies a magical power. The Secret of Eternal Youth is revealed here, for all who seek it.

WE ARE IN A STATE OF PERPETUAL DEATH AND ETERNAL BIRTH.
A part of us is at this moment dying and being cast out of the body.
Another part of us is coming into physical birth---in order to take
the place of those cells which have just died. If we can maintain
a perfect balance between these two elemental forces of life and
death, the Powers of The Christ are at our complete disposal.

Two cosmic forces are acting now within every organ of your body. The Force of Contraction, or Saturn; and the Force of Expansion, or Jupiter. Within the marrow of your bones Nature is busy building up a stream of embryonic life-giving cells. These cells will carry out their perfect purpose in feeding and sustaining all of the organs and parts of your fleshly temple. Then these cells will die and pass out through the surface of your skin tissues. (A mystic or sensitive healer can determine how much health and strength there is in ones body by the amount of magnetism, or dead cells being cast off the surface of the body. These dead cells leave the body in a magnetic stream similar to the tiny bubbles of ginger-ale or soda water as it efferivesces to the surface.)

If more negative or dead cells leave the body than are being made in the positive chambers of the bones, our body begins to age and deteriorate until sickness and discord seriously impare its life.

THE VAST MAJORITY OF MEN AND WOMEN LIVE WITH THE SAME AUTOMATIC AND unconscious reactions to their bodies as do the creatures of woods and oceans. But unlike their animal brethren they are able to interfere with the Divine Pattern of the Father through the use of their will and free-choice. However this use of free-will rarely produces greater health and perfection in our bodies because we produce a disturbance in the delicate balance of our forces--rather than following the perfect instinct of the animal to do what is the correct, or healing, thing to do, thereby maintaining the balance.

To live automatically is to live in pain and discord. To live in unconsciousness of the Twelve Divine Forces of Life within our bodies is to languish in disease, suffer old age, and then surrender our body in death.

Hence the Great Command: "THAT WHICH YE DO, LET IT BE DONE WITH THY WHOLE BEING: THEY WHOLE HEART, WHOLE SOUL."

This whole-ness of Being is to be achieved through our conscious, and intense, use of our sense-faculties---since we can know Life ONLY through such faculties of Being.

The Divine Balance between the Positive and the Negative Forces, the Creative and the Destructive Pulsations, will be achieved in no other way save through the Genius of Sensation.

To realize that we are each a Solar System, each a Universe of the Twelve Creative Ideas, each a Saviour to our own Kingdom of Sense, this is an exalting and glorifying concept——the same concept the Saviours of Mankind have always known and applied. Therefore, dare to think of yourself as a Cosmic God in embryo, preparing to learn and master the secret of your Twelve Shrines of Divinity, the organs of your flesh body.

The Kingdom of God is truly within---within YOU! Dare to accept this miracle-working concept of your own indestructibility, your own eternity, your own infallibility. And live in great and intense awareness of every part of your Divine Temple of the Flesh. With such Light pulsating, rhythmically, through your every cell, NO pain, NO shadow, NO inharmony can further exist in your Soul. This is the Law. The WHOLE Law, of the ONE Pulsation, the Perfect Pattern of the many blended into the One. Satisfy The Law!

(The Aquarian Science of Healing is continued in the two companion booklets, TEMPLES OF HEALING, and HIS PERFECT WAY.)

# GERALD LIGHT

(OF LONDON)

GERALD LIGHT IS A PROPHET OF THE NEW AGE IN THE BEST TRADITIONS OF the great mystics. Author of many books on philosophical subjects he is, however, best known for his remarkable paintings and pictures of the Astral Kingdoms and their Beings of Light.

As an intermediary between the Inner and outer worlds, GERALD LIGHT has won great distinction in Europe and The Far East for his high purpose and spiritual integrity as a Messenger of the Spirit.

Through the medium of his LIGHT LECTURES this modern mystic brings to the Students of America a new vision of Spiritual Wisdom and Metaphysical Knowledge. The LIGHT LECTURES have aroused immediate interest from the great body of Spiritual Students who believe that the warlike demands of the present age require greater Instruction in the Divine Mysteries than has been offered by most teachers.

Through Spirit-Pictures and Astral-Images, given to him by Those Great Teachers in the Invisible, GERALD LIGHT has entertained vast audiences from coast to coast---and offered personal Instructions to the comparatively small body of earnest Workers in the Truth.

FOR YOUR INFORMATION, BORDERLAND SCIENCE RESEARCH ASSOCIATES SAY:
"GERALD LIGHT has given Mankind the most concise piece of Occult
information since Ancient Times." The Mark Frobert Controls say:
"We did not know there was anyone capable of receiving such laws
and making the right use of it" (until G.L. gave it to the world.)

For those of our friends who have not heard GERALD LIGHT, of London, there is a delightfully different experience in store for you. For with no ballyhoo whatever this distinguished mystic, author and artist has rapidly won a respected place in the ranks of America's outstanding teachers. His is a Great Aquarian Voice of Courage.

# THE JOURNALS OF GERALD LIGHT.

THESE REMARKABLE WRITINGS OF GERALD LIGHT ARE BEING OFFERED TO the public for the first time since their author began to set down his experiences in a combination of code and short-hand some forty years ago when he inaugurated his spiritual ministry in East China. To date approximately fifty journals have been compiled for use in his private study-classes. The three brochures described below are composed of extracts from this monumental collection of metaphysical experimentation.

SIGNS IN THE SKIES: In this Spirit-inspired Message, GERALD LIGHT tells what the Invisible World, the Realm of Spirit, has to say in regard to the ever-increasing threat of World War Three. For the first time we learn from authentic Spiritual Sources the meaning of the incredible Coming of The Space-People, with all the strange manifestations of Flying Saucers, etc., in our skies.

SPIRIT SPEAKS: With majestic authority seven Great Voices speak to us from the Realms of Spirit; and give a brilliant account of the pilgrimage of GERALD LIGHT and his staff through the deep South. Astonishing communications are presented for comfort and instruction by Franklin Roosevelt, Rockefeller, Mahatma Gandhi, The Great Cheiro, and The Celestial Voice of the City-of-Sun. Unquestionably the most important communications of our age.

HIS HEALING HEART: The results of a half-century of searching in every land and legend of the earth for The Perfect Pattern, the Magic Method of the Master Healing. In the rapidly dawning age of Aquarius this new and revolutionary method of the Perfect Healing Prayer will undoubtedly take its place in the forefront of Great Aquarian Achievements of Gerald Light and his Ministry.
